

# Oxford Sideboards

Sideboards with Sliding Doors

Panel is sound-absorbing

Sideboards with Sliding Doors

## OXFORD Sideboards with Sliding Doors

The sliding doors allow for space-saving placement. The sideboards are lockable and feature stainless steel handles. The doors are equipped with a sound-absorbing panel application, consisting of a recycled PET felt layer and elegant light oak slats. The panel effectively absorbs sound, improves room acoustics, and adds a stylish design highlight.

The sideboards have a visible back panel, allowing free-standing placement in the room. They are fitted with steel shelves, providing significantly higher load capacity than conventional wooden shelves.

## OXFORD Sideboard with Drawers

This sideboard with visible back panel has 2 sliding doors and 3 central drawers with push-to-open function. Behind the doors, there are two compartments suitable for filing folders.

The furniture is PEFC-certified. The PEFC label stands for responsibly and sustainably managed forests and environmental protection. We contribute to the preservation of forests and support sustainable forestry practices.

Sideboard with Drawers

Solid wood: 1 mm  
PET felt: 9 mm
